

ADVANCED EHS CONCEPTS

FIRE WATCH SAFETY TRAINING

Training Overview

Workplace fires resulting from hot work activities are preventable. The use of adequately trained fire watchers is one of the control measures recommended to prevent workplace fires during and after hot work activities. Advanced EHS Concepts LTD Workplace Fire Watch course focuses on the roles and responsibilities of a fire watcher. Trainees will also gain knowledge in work permits, hazard identification, firefighting equipment and emergency response.

Who should attend?

This course is highly useful for all levels of employees, especially:

- Fire watchers
- Persons carrying out or supervising Hot Works

Course Topics

This course covers the following topics:

- Introduction: Fire and Its Hazards
- How Fire Works
- Preventing Fires
- Classes of Fires
- Preparing for a Fire Emergency
- Hot Work Permits/Job Safety Analysis
- Practical Exercise
- Post Test and Concluding remarks (20 question quiz)
