

ADVANCED EHS CONCEPTS

LOCKOUT/TAGOUT SAFETY AWARENESS

Training Overview

The release of hazardous energy is known to result in workplace injuries and even fatalities. To protect workers from such incidents, lockout tagout training and procedures are required to create awareness on the isolation of hazardous energy sources to machinery and equipment. Our Lockout/ Tagout Safety Awareness training programme covers the various types of active and stored energy sources and the controls necessary to protect personnel conducting service or maintenance work on industrial equipment.

Who should attend?

- Anyone responsible undertaking service or maintenance work on industrial equipment
- Anyone responsible for Health & Safety

Course Topics

This course covers the following topics:

- Introduction to Lockout Tagout
- Why is Lockout Tagout necessary
